

Innovative VET scalable Micro-Credentials solutions that **Engage, Explore, Explain, Elaborate** and **Evaluate**.

FivE project mission is to develop an innovative European approach to **Micro-credentials** for the **Welding** and **Fish Farming** industries.

KEY ACTIVITIES

Skills Foresight Forums (SFF):

- Membership between industrial companies and VET providers to align training with market needs.

Cross-Sectoral Common Competence Framework (CCF):

- Standards for cold water finfish farming, welding specialists and education standards.

Framework of Shared Learning Outcomes (FSLO):

- Differentiated EQF levels for husbandry operatives and welding inspectors.

Digital Certificates/Wallet Solutions:

- Micro-credentials compatible with the European Digital Wallet.

E-learning Project Resource Development:

- E-learning quality standards for partner compatibility.

Pilot Work-Based Learning Delivery:

- Blended learning system tested with learners.

PROJECT DURATION

• Jan. 2024 - Dec. 2026

Join the FivE Project!

Be part of an innovative approach to vocational education and training that aligns with industry needs and enhances learner outcomes.
